

March 28, 2009

Dear Mike,

I want to thank you for your help and dedication to the projects we have worked on together, their completions, your work with all the consultants, vendors, and home office personnel to coordinate the work, control costs and meet the established budgets and schedules.

With yourself and Jim Cyr working as the GC for construction of the Harkins Theatres in southern California, we were confident we had a capable and concerned contractor. We enjoyed working closely with both of you on the design, revisions, and your coordination with the architects and consultants. Your help in controlling costs when any unanticipated issues arose was invaluable to us. Even with the "tight" building sites you maintained an organized, safe, clean job site

As we all know in theatre construction, completing the work and opening on schedule is paramount to the projects success. Your coordination with the developers and their contractors was certainly crucial in our successful openings. This ability to work with the developers is absolutely critical and one less headache for the owner, in this you and Jim excelled.

Your use of sub-contractors with a knowledge of theatre construction, there attention to detail and willingness to foresee potential problems and resolve them in a timely manner saved the owner significant sums of money in the projects cost.

Look forward to working with you and Jim in the future.

Sincerely,

Terry N. Kilgore
Construction Manager
